HTML Intro Activity

1. Create a folder and open it in visual studio code
2. Add index.html
3. In index.html enter
    ```
    <!DOCTYPE html>
    <html lang="en">
            <head>

            </head>
            <body>

            </body>
    </html>
    ```

4. Add the following inside <head> tag, you can enter whatever content attribute value you like
    - Meta tag with charset utf-8
    - Meta description enter whatever you like in the content attribute
    - Meta keyword enter whatever you like in the content attribute
    - Meta author enter your full name in the content attribute

5. Inside the body tag do the following:
    - **Add h1**, **h2**, **h3**, **h4**, **h5**, **h6** html tag inside the body tag
    - **Add paragraph** tag inside the body tag and inside it enter whatever text you like to enter
    - Inside the **paragraph** tag use the **strong, em and sub.**
    - Add an **anchor** tag when click will open www.google.com.
    - Add **image** tag and enter your picture in the src attribute
